**POWERFLARE CORPORATION TO EXHIBIT AT CLEAN GULF CONFERENCE**

MENLO PARK, CA; October 31, 2005: PowerFlare Corporation [www.powerflare.com] will be exhibiting at the 2005 Clean Gulf Conference. The Conference is a forum for maritime and energy sector companies and regulatory agencies to exchange best practices on a wide range of issues, from environmental concerns to homeland security.

This year's Clean Gulf Conference is November 9-10 in Galveston, Texas. Details about the Conference are listed on:  
[www.cleangulf.org](http://www.cleangulf.org)

Invented by a police officer, the PowerFlare Safety Light is a rugged, water-proof lighting device that is suited both for emergency/rescue signal use as well as illumination. It has user-selectable modes that allow it to be set to flash, send Coast Guard-approved "SOS" signals or be used in solid-on mode as a lantern. PowerFlare Safety Lights can also be used to land rescue and medical helicopters. PowerFlare lights can be clipped onto personnel or objects/hazards and can even be wedged inside of standard traffic cones.

Some of the unique features of the new PowerFlare Model PF-200 Safety Light include:

- \* Extreme ruggedness: can be run over with a fire truck
- \* Omni-directional 360-degree light output visible up to 10 miles away
- \* Eliminates pollution and fire/explosion danger from old-fashioned flares
- \* Ideal for earthquake, hurricane, power blackout, and emergency kits
- \* Made in the U.S.A.

"The maritime and energy industries are very sensitive to both safety and environmental issues," stated Ken Dueker, PowerFlare's CEO. "PowerFlare Safety Lights increase worker safety and do not pollute, whether used in marine operations or at a loading dock or plant."

Customers include government agencies, corporations, and individual citizens who are using PowerFlare Safety Lights for safety as well as sport and recreation (hiking, SCUBA, boating) applications.

ABOUT POWERFLARE CORPORATION ([www.powerflare.com](http://www.powerflare.com))

PowerFlare Corporation is a privately-held company located in the San Francisco Bay Area, California, that manufactures ultra-rugged lighting and safety products for public safety professionals, military groups, as well as for consumer sport/recreation and safety markets. The PowerFlare(R) Safety Light was invented by an officer from a municipal police department in Silicon Valley with the objective of eliminating the danger, pollution, difficulty in use, and needless cost of old-

fashioned road flares. POWERFLARE (reg. mark) and associated logos are trademarks of PowerFlare Corporation. Other trademarks are the property of their respective owners.
