

PowerFlare PF-200 Safety Light

Safety and Sport Applications

Invented by a police officer, the new **PowerFlare® PF-200 Safety Light** is an important item to have, whether you use it for sports or in an emergency.

This compact (4") light emits 360° of ultra-bright LED light, visible for up to 10 miles away. It is waterproof and so tough, you can run it over with a fire truck. (See video on www.powerflare.com).

Applications include:

- ❑ in your car in case of breakdown or accident
- ❑ keep in disaster supply kit
- ❑ power failure: multiple flash-patterns, including solid-on for use as lantern
- ❑ signal rescuers to your house (put in window or driveway)
- ❑ sports and recreation (easy to clip on to belt, backpack)

Unlike flashlights with alkaline batteries or light sticks, **PowerFlare** units can handle extreme temperatures, won't cause a fire (like candles or traffic flares), and feature an amazing 10 year storage/shelf life with lithium batteries that never leak. The LED bulbs are *unbreakable* and can operate thousands of hours.

Don't be left in the dark: Get a PowerFlare beacon today!

automotive & traffic * bicycle light * rescue signal * hiking & camping * SCUBA diving * power outages * construction * boating/marine * earthquakes, hurricanes, floods, other disasters

PowerFlare: Ready when you need it. Makes a great gift!
